Proceedings

European Metallurgical Conference

Emc 2011

June 26 - 29

Düsseldorf, Germany

The European Metallurgical Conference is organized by
Structure of the Proceedings

- Volume 1:
  Copper
  General Pyrometallurgy / Vessel Integrity / Process Gas Treatment

- Volume 2:
  Lead and Zinc
  Process Control / Process Modelling

- Volume 3:
  Light Metals
  General Hydrometallurgy
  Precious Metals

- Volume 4:
  Process Metallurgy
  Recycling / Waste Treatment and Prevention

- Volume 5:
  Sustainable Technologies / Sustainability of Non-Ferrous Metals Production
  Waste Effluent Treatment / Biohydrometallurgical Applications
  Posters
  Authors Index
  Keywords Index
Table of Contents – Volume 1

Copper

Indium Distribution during Smelting of WEEE with Copper Scrap 3
Alicia Anindya, Prof. Douglas Swinbourne, Prof. Markus Reuter, Robert Matusiewicz

Upgrading of an Impure Copper Concentrate for Pyrometallurgical Processing 15
Samuel Ayowole Awe, Åke Sandström

A Lower Emission of Greenhouse Gas by the New Copper Smelting Process 33
Cui Zhixiang, Shen Dianbang, Wang Zhi, Bian Ruimin

40th Anniversary of Huelva Smelter Operations – Looking Ahead from the Past 43
Francisco Jiménez, Guillermo Ríos

Dissolution of Copper and Selenium from Copper Anode Slimes 57
Yasin Kilic, Servet Timur

Large Scale FRHC and Anode Copper Production for Optimized Production Costs 71

Optimization of the Cementation of Copper Using by Scrap Iron 85
D. Moradkhani, B. Sedaghat, A. Ghaffari

Three Macro Trends in Copper Production and Implications for Tellurium 95
Dr. Funsho Ojebuoboh
Distribution of Bismuth between Copper and FeO_x-CaO-SiO_2 Slags at 1300 °C
Lidya Paulina, Tak Seng Kho, Prof. Douglas Swinbourne

Development of a Coating Process for Copper Strips with Appropriate Lead-Free Solders
Dipl.-Ing. Stefan Pogatscher, Dipl.-Ing. Dr.mont. Susanne Koch, Univ.-Prof. Dipl.-Ing. Dr.mont. Helmut Antrekowitsch

Recovery of Nickel from Bleeding Electrolyte Treatment Plant at Atlantic Copper
Irene Ruiz, Cristina Arbizu, Guillermo Ríos

Processing Complex Copper Concentrates – Knowledge about Element Distribution is necessary
Jürgen Schmidl, Torben Edens, Dr. Harald Kadereit, Prof. Dr. Helmut Antrekowitsch

Current Status of Production and Expansion Projects of Primary Smelter Aurubis Hamburg
Dr.-Ing. Harald Wiehler, Dipl.-Ing. Jasmina Hasanbegovic

Distribution of Platinum and Palladium in Iron Oxide Slags Equilibrated with Molten Copper at 1573 K
Prof. Dr.-Eng. Katsunori Yamaguchi

Improving Copper Recovery from Production Slags by Advanced Stirring Methods
M. Zander, B. Friedrich, R. Degel, G. Kleinschmidt, M. Hoppe, J. Schmidl

Proceedings of EMC 2011
General Pyrometallurgy / Vessel Integrity / Process Gas Treatment

New Off-Gas Treatment Facility in the Secondary Smelter of Aurubis AG in Hamburg
Dr. Ino Bauer, Dr. Harald Kadereit

Roasting of a Molybdenite Concentrate
E.A. Brocchi, C.A.R. Queiróz, A.C. Vidal, R.F.M. de Souza

Ten Years of RTO Experience in a Secondary Lead Smelter and Associated CTP Developments
Dipl.-Ing. Ulf Buggelsheim, Dipl.-Ing. Jörg Papak

Kinetic Study on the Carbothermic Reduction of Electric Arc Furnace Dust
M.H. El-Sadek, M.B. Morsi

Conditions of Pyrolythic Processes in Multi Chamber Furnaces for Aluminium Recycling
B. Jaroni, A. Lucht, B. Friedrich, G. Rombach

Selecting and Integrating Gas Handling Solutions for Outotec TSL Smelting Technology
R. Masurewicz, Prof. M.A. Reuter, S.P. Hughes, Dr. K. Knabel, K. Hasselwander

Metallurgical Fundamentals for an Autothermic Melting of WEEE in a Top Blown Rotary Converter
S. Maurell-Lopez, S. Gül, B. Friedrich, M. Ayhan, M. Eschen

Influence of Alumina on Iron-Silicate Slag Properties
Sina Mostaghel, Caisa Samuelsson, Bo Björkman

Proceedings of EMC 2011
Removal of Phosphorus from Molten Silicon by Electron Beam Melting Technique
Takashi Nagai, Masafumi Maeda

Oxyfuel Trends in the Non-Ferrous Industry
Dr.-Ing. Thomas Niehoff

Ceramic Materials and Coating Development for Applications in the Non-Ferrous Metals Industry
Dr. Krishna Uibel, Dr. Jens Eichler, Georg Victor, Dr. Christoph Lesniak

Leveraging Technology to Economically Increase Furnace and Smelter Production Rates
Nils Voermann, Chris Walker, Simon Nitschke, Robert Veenstra, Tom Gonzales
